

NORTENE®

PROTEX

Reinforced tarpaulin

If you don't have a permanent shelter in your garden for tools and large items, why not try the Protex reinforced tarpaulin in 90 g/m² polyethylene. This tarp is 100% watertight and has eyelets spaced at 1m intervals so it can be attached to different types of structure.

Benefits

Highly resistant and 100% watertight polyethylene tarpaulin.
 Lightweight but impermeable. Suitable for covering miscellaneous outdoor objects: lawnmower, trailer, boats, etc
 Easy to-use with eyelets spaced at 1m intervals.
 Long-lasting with excellent mechanical resistance.

Characteristics

In 90 g/m² polyethylene.
 UV resistant.
 Life span of more than 2 years.
 Available in different formats.
