

NORTENE®

AERO TUNNEL

Accordion tunnel with perforated film

Do you need a practical and effective kitchen garden tunnel? Nortene has just the thing for you: 3m of polyethylene film, perforated to allow plants to breathe and fitted with integral hoops for quick and easy assembling and dismantling.

Benefits

Perforated film with preassembled galvanised steel hoops.

Easy to set up and handle when harvesting or carrying out maintenance.

Characteristics

Transparent and perforated film in 120µ polyethylene.

UV resistant. Can be used for several years.
7 hoops

Dimensions: 3×0.6×0.45m.
